

Chartwells is excited to offer a new café program design for the students at DuPage High School District 88. **Student Choice** promises to deliver on engagement by giving students a voice in their menu options! New, on-trend station concepts provide more variety, while voting technology allows for better student interaction – all resulting in an enhanced student dining experience.

Here's a quick overview of how Student Choice works:

1. Students **taste** sample menu options of three or more new food concepts in a tasting event held in the café
2. Students **vote** for their favorite concept using live polling software.
3. The winning concept is then featured at a new Student Choice station OR on the menu as a limited time offer for students to **enjoy**
