

How to Use Noodle Tools

If the teacher has already created his/her personal class folder, students will be able to share their bibliography with the teacher by just mentioning the class name to their folders.

For The First Time User

1. Open the Noodle tools from AT Media Center Webpage.
2. Click on **New user? Create a new folder.** This will direct you to create a login with your name for future use.

For Returning User

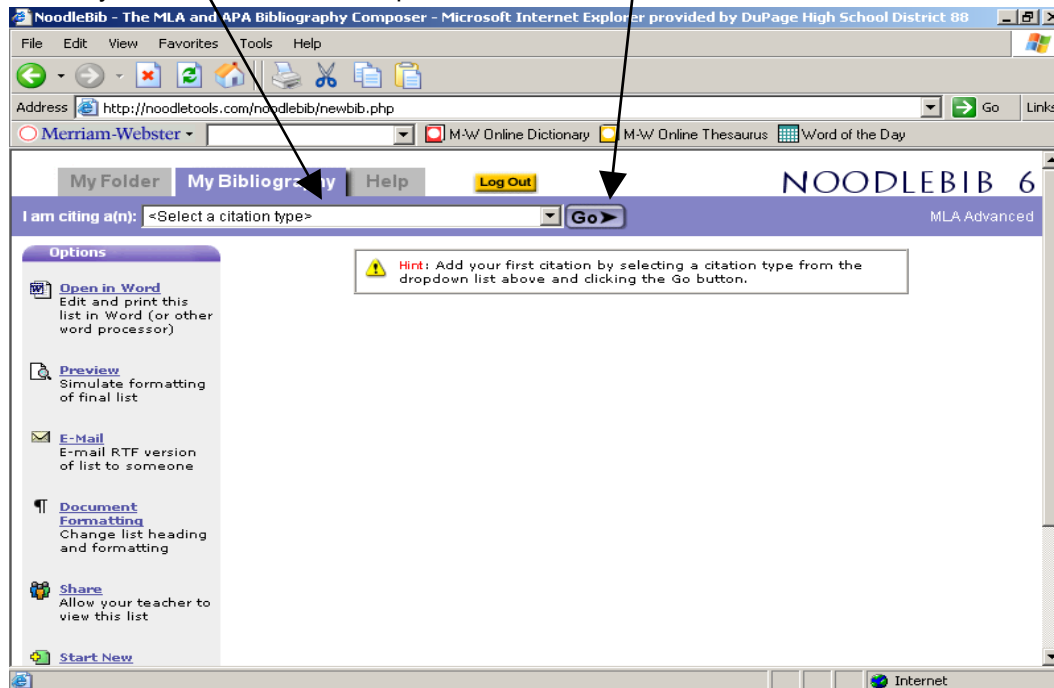

1. Enter your **Personal ID** and **Password** then press **Login** to open your personal folder.

How to use NoodleBib 6

1. Click on **NoodleBib 6** after login to your personal folder.
2. Click on **Start New List** and start adding citations.
3. Choose the citation list style to **MLA Advance**. Don't forget to add **Description** of the project.
4. Click on **Start Adding Citations**

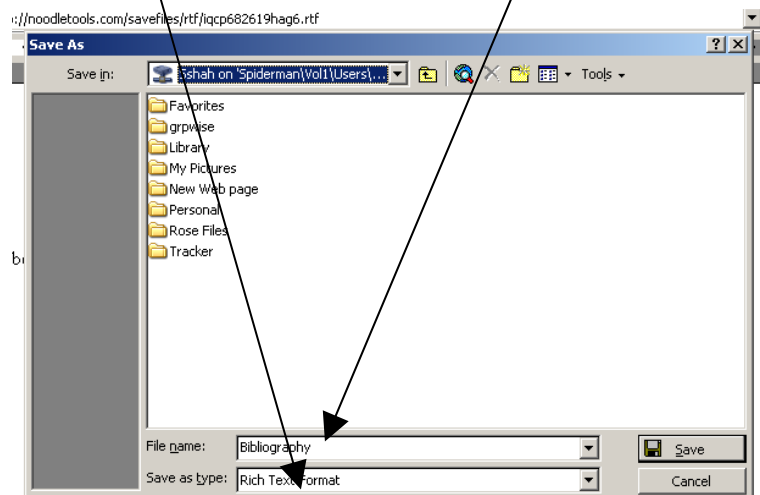

How to create a bibliography with the help of Noodle Tools

1. Choose your **source** from the drop down list and hit **Go**.

2. Provide the necessary information and Hit **Check for Errors**
3. Missing or wrong information would be highlighted with red font. Do the correction if necessary.

4. Click on **Update Citation**
5. To add another citation again select the source from drop down menu from the top bar and hit go.
6. Delete or Edit the citation if required.
7. To print the created bibliography select the option **Open in Word** on left side of the window and print from word.
8. Save the Open File as a **RTF File** and give appropriate **File name** for Later Use.

9. Email the List or format the text of list, and also share the list with your teacher with the options on the left side of the screen.

10. Don't Forget to Click  when you're done.
