

# TRAILS

## Tool for Real-time Assessment of Information Literacy Skills

All freshmen participated in the TRAILS Info Lit Skills exam in the fall of 2008 to gather baseline data. The students will write several papers this school year that require them to interrupt /paraphrase information for their writing or project. At the end of this school year, (Spring 09) students again will take the exam to show their growth. Data will also be gathered from AT Seniors to collect a baseline on our graduating students.
