Other Sophomore – Senior Classes:

English 10	Geometry	US History	Physical Science
English 11	Algebra 2	Government/ Economics	Earth Science
English 12	Consumer Math	Drivers Ed	School to Work elective

ACHIEVE Program

The Achieve Program is a highly structured environment for students that require intensive academic and behavioral support that offers skill development in educational, social-emotional and transitional skills. Many of the courses offered will be co-taught with regular education and special education staff to meet the needs of all students regardless of eligibility.

A primary focus of the program is helping each student accept responsibility for his/her own academic progress and behavioral choices in the school setting. This will be accomplished in the context of a highly structured classroom environment which offers clear expectations, consistency and supportive therapeutic component. Each student's choices will be reinforced through direct and immediate feedback throughout the day, as well as group and or individual counseling as needed. By fostering a supportive relationship with each student, we will work together with that student to achieve the following goals: 1) development of appropriate problem-solving skills, 2) development of appropriate interpersonal skills, 3) increased school success, 4) development of a vocational plan, including goals to be accomplished in the high school program, as well as long-range goals for work and/or education and ultimately, 5) high school graduation.

Example Freshman Schedule:

- English 9, Human Geography, Biology, Algebra
 - ✓ All four of these core content level courses are co-taught with a regular education teacher
- Tier II or III Reading Class (depending upon reading scores) or an Elective or PLATO course
