- **Recommendation to approve the Performance-Based Administrator’s Contract for Dr. Scott Helton as District 88 Superintendent of Schools designee**, effective January 31, 2011 through June 30, 2014. This contract includes transition planning with Dr. Steve Humphrey who will retire June 30, 2012 with 12 years of service in District 88 and 42 years in education.

#### **INFORMATION ITEMS:**

- **Mr. James Mathieson**, auditor from Mathieson, Moyski, Celer, LLP **presented the 2009-10 financial audit reports** reflecting the June 30, 2010 year-end balances. He highlighted that despite deficit funds and the difficult economic times, the **district remains in the “Recognition” category which is the highest level acknowledged by the State Board of Education**. Although the district reached the recognition level, he indicated that financial challenges will continue to loom in future years for District 88 as well as most school districts throughout Illinois.
- **Ms. Doreen Linderman**, Senior Financial Advisor from PMA, **presented the district’s Financial Planning and Projection Model**. Using the FY11 adopted budget as the starting point, and assumptions developed with the administration going forward, she presented the 5-year financial outlook of the district. **The trend indicates that expenditures will continue to outpace revenue growth for the next five years**. Although some savings will be realized with associated staff retirements, the district must continue to look at ways to reduce the deficit and to align expenditures more closely with revenues.

## EDUCATIONAL FOCUS ITEMS:

- **Reading Department Chairs Ann Peters (AT) and Barb Willson (WB)** presented information on year-long Tier 2 and Tier 3 reading interventions that employ research based models. Tier 2 interventions provide skill development while Tier 3 approaches are more diagnostic and prescriptive in nature. Each high school provided benchmark data related to student scores and the number exiting the program. Pleased with the preliminary results, the departments will continue progress monitoring.
- **Assistant Principals for Curriculum & Instruction Adam Cibulka (AT) and Ann Kimpton (WB)** reported about course selection and registration for next school year as well as summer school information. The upcoming freshmen information nights provide students and parents with details about course registration. Counselors are available to field questions about the process and ensure students are aware of course opportunities. March 1 is the deadline for all course requests so that staffing review can begin and low enrollment courses can be submitted to the Board of Education for consideration at the March 14 meeting.

Mirroring the schedule of previous years, **summer school** is scheduled for June 20-July 22, 2011. Classes will be hosted onsite at the buildings now that construction is complete.
