

January 2017

Dear Parent/Guardian:

The State of Illinois requires all students that will be entering Grade **12 or higher in August 2017 to show proof of having one dose of the Meningitis vaccine after the 16th birthday.** Your student may have received a dose around the age of 11, and it is now required to have a dose after the age of 16.

The Nurse's Office only receives the 9th grade physical, so it is possible your student may have already had the vaccination, but **it is not in the current records.** If they have received the vaccine, please provide the documentation for their records prior to registration in August.

If you need to schedule an appointment, please do so as soon as possible to update your student's record and have the documentation faxed to the Nurse's Office at 630-530-6062. If you have any questions, please call the Nurse's Office at 630-530-3457. Thank you for all of your help.

Sincerely,

Denise Birkner, RN, PEL-CSN
School Nurse
Willowbrook High School
Office (630)530-3457
