6:15 School Accountability

According to the Illinois General Assembly, the primary purpose of schooling is the transmission of knowledge and culture through which students learn in areas necessary to their continuing development and entry into the world of work. To fulfill that purpose, the Illinois State Board of Education prepared *State Goals for Learning* with accompanying *Illinois Learning Standards*.

The School Board gives priority in the allocation of resources, including funds, time, personnel, and facilities, to fulfilling this purpose.

Quality Assurance

The Board continuously monitors student achievement and the quality of the District's work. The Superintendent shall supervise the following quality assurance components, in accordance with State law and Illinois State Board of Education (ISBE) rules, and continuously keep the Board informed:

1. Prepare each school's annual recognition application and quality assurance appraisal, whether internal or external, to assess each school's continuous school improvement.
2. Continuously assess the District's and each school's overall performance in terms of both academic success and equity. This includes, without limitation, a thorough analysis of ISBE's balanced

accountability measure and each school's *Multiple Measure Index* and corresponding *Annual Measurable Objective* provided by ISBE.

3. If applicable, develop District and School Improvement Plans, present them for Board approval, and supervise their implementation.
4. Prepare a school report card, present it at a regular Board meeting, and disseminate it as provided in State law.
5. In accordance with Sec. 2-3.153 of the School Code, administer at least biennially a survey of learning conditions on the instructional environment within the school to, at minimum, students in grades 6 through 12 and teachers.

The term *children with disabilities*, as used in this policy, means children between ages 3 and 21 (inclusive) for whom it is determined, through definitions and procedures described in the Ill. 6:235 Access to Electronic Networks

Access to the Internet

The global electronic community, commonly referred to as the "Information Superhighway" or the "Internet," is a very valuable resource for education. The Internet, (including, but not limited to, internet web sites, pages, files, e-mail, on-line services, and bulletin board systems) provides access to a vast array of

resources, which can be used to support the curriculum by facilitating resource sharing, innovation, and communication.

Therefore, the Board's goal is to include these Internet resources in the District's instructional program, where appropriate, to increase learning and improve instruction. To this end, the Superintendent or his/her designee will develop an implementation plan for this policy, which will include administrative procedures for staff and student use of the Internet:

Internet use is a privilege, not a right, and therefore can be suspended or revoked. All use of the District's connection to the Internet must be in support of education and/or research, be consistent with the educational objectives, policies, rules, and regulations of the Board, and be in compliance with and subject to District and building discipline codes.

Teachers may use the Internet throughout the curriculum. However, such Internet use must be consistent with the curriculum adopted by the District, as well as with the varied instructional needs, learning styles, abilities, and developmental levels of the students. Also, the selection of materials, sites, services, bulletin board systems, etc., from the Internet must comply with the Board's selection policy for instructional materials and library-media-center-materials.

Further, the Internet may be used in a variety of formats, including, but not limited to: e-mail; teacher-selected material in a prescriptive setting; and "live" Internet interaction, in which material is not preselected.

In order to make the best, most appropriate use of the Internet, each teacher must sign the District's User Agreement for Access to Electronic Network & Equipment as a condition of using the District's Internet connection. A teacher may not use a live connection with students nor authorize such connections until his/her *Agreement* is signed.

For purposes of this policy, individual Board members and all District 88 staff, employees and contractors having Internet access, or using the Internet, will be subject to the same rules of conduct, behavior and communications as teachers, will be required to abide by the terms contained herein, and will be required to sign a User Agreement for Access to Electronic Network & Equipment.

Students may not make a live Internet connection without specific authorization from a faculty member; in any event such live connections are subject to this policy. Such live Internet connections must have a faculty member present.

Parents/guardians who do not want their child to use the Internet at school, or participate in Internet activities, must contact the school office and complete a form notifying the District of the intent to opt-out of such use and activities. This opt-out statement will remain in effect as long as the child is enrolled at that school.

Access to the Internet – continued

General rules for behavior and communications, as stated in the District's and schools' codes of conducts, apply when using the Internet, whether the electronic connection is made at school or remotely through school district network interfaces. Breaches of the code of conduct during use of the Internet will be treated as though they occurred "live", that is, within the school.

The failure of any student or teacher to follow the terms of this policy or its administrative procedures, rules, or regulations will result in the loss of Internet privileges, disciplinary action, and/or appropriate legal action. However, due process will be given, commensurate with the seriousness of the offense. The District's User Agreement for Access to Electronic Network & Equipment contains the appropriate uses, ethics, and protocol for the Internet.

Electronic communications and downloaded material may be monitored, read, edited, or traced by school officials.

Filtering

In accordance with the requirements of the Children’s Internet Protection Act (CIPA) and the Neighborhood Children’s Internet Protection Act (Neighborhood Act), the District will monitor the online activities of minors (individuals under the age of 17), and operate a technology protection measure (filtering), with respect to any of its computers with Internet access, that blocks or filters Internet access to visual depictions that are obscene (as that term is defined in Section 1460 of Title 18, United States Code), child pornography (as that term is defined in Section 2256 of Title 18, United States Code), or with respect to use of computers with Internet access by minors – harmful to minors.

For purposes of this policy, “harmful to minors” means any picture, image, graphic image file, or other visual depiction that:

- (a) taken as a whole and with respect to minors, appeals to a prurient interest in nudity, sex, or excretion;
- (b) depicts, describes, or represents, in a patently offensive way with respect to what is suitable for minors, an actual or simulated sexual act or sexual contact (as those terms are defined in Section 2246 of Title 18, United States Code), actual or simulated normal or perverted sexual acts, or a lewd exhibition of the genitals; and
- (c) taken as a whole, lacks serious literary, artistic, political or scientific value to minors.

The District will enforce the operation of the technology protection measure during any use of those computers by minors (individuals under the age of 17) and adults. However, an administrator, supervisor, or other person authorized by the District, may disable the technology protection measure concerned, during use by an adult, to enable access for bona file research or other lawful purpose.

In carrying out these responsibilities, the District will ensure, through this policy and the administrative regulations related hereto:

- (a) that minors are not provided with access to inappropriate matter on the Internet and World Wide Web. Determinations regarding what matter is inappropriate for minors will be made by the Board, using criteria it deems appropriate;
- (b) the safety and security of minors when using electronic mail, chat rooms, and other forms of direct electronic communications;

2. Courses in an accredited foreign exchange program

The student must seek approval from the Superintendent or designee to receive graduation credit for any non-District course or experience. As approval is not guaranteed, students should seek conditional approval of the experience before participating in a non-District course or experience. The student assumes responsibility for any fee, tuition, supply, or other expense. The student seeking credit is responsible for (1) providing documents or transcripts that demonstrate successful completion of the experience, and (2) taking a proficiency examination, if requested. The Superintendent or designee shall determine which, if any, non-District courses or experiences, will count toward a student's grade point average, class rank, and eligibility for athletic and extracurricular activities. This section does not govern the transfer of credits for students transferring into the District.

Substitutions for Required Courses

Vocational or technical education. A student in grades 9-12 may satisfy one or more high school courses or graduation requirements by successfully completing related vocational or technical education courses if:

1. The Building Principal approves the substitution and the vocational or technical education course is completely described in curriculum material along with its relationship to the required course; and
2. The student's parent/guardian requests and approves the substitution in writing on forms provided by the District.

Advanced placement computer science. The advanced placement computer science course is equivalent to a high school mathematics course. A student in grades 9-12 may substitute the advanced placement computer science course for one year of mathematics, in accordance with Section 27-22 of the School Code. The transcript of a student who completes the advanced placement computer science course will state that it qualifies as a mathematics-based, quantitative course.

Substitutions for physical education. A student who is eligible for special education may be excused from physical education courses pursuant to 7:260, *Exemption from Physical Education*.

Re-Entering Students

Individuals younger than 21 years of age may re-enter high school to acquire a high school diploma or an equivalency certificate, subject to the limitations in Board policy 7:50, *School Admissions and Student Transfers To and From Non-District Schools*. Re-entering students may obtain credit through the successful completion of the following (not all of these may be available at any one time):

1. District courses
2. Non-District experiences described in this policy
3. Classes in a program established under Section 10-22.20 of the School Code, in accordance with the standards established by the Illinois Community College Board
4. Proficiency testing, correspondence courses, life experiences, and other nonformal educational endeavors
5. Military service, provided the individual making the request has a recommendation from the American Council on Education

The provisions in the section **Credit for Non-District Experiences**, above, apply to the receipt of credit for any non-District course.

6:315 High School Credit for Students in Grade 7 or 8

The Superintendent or designee may investigate, coordinate, and implement a program for students in grades 7 and 8 to enroll in a course required for a high school diploma.

If a program is available, students in grades 7 and 8 may enroll in a course required for a high school diploma when the course is offered by the high school that the elementary student would attend and the student participates in the course at the high school and the elementary student's enrollment in the course would not prevent a high school student from being able to enroll.

A student who successfully completes a course required for a high school diploma while in grades 7 and 8 shall receive academic credit for the course. That academic credit shall satisfy the requirements of Section 27-22 of the School Code for purposes of receiving a high school diploma, unless evidence about the course's rigor and content show that the course did not address the relevant Illinois learning standard at the level appropriate for the high school grade during which the course is usually taken. The student's grade in the course shall also be included in the student's grade point average.

6:320 High School Credit for Proficiency
Proficiency Credits

Subject to the limitations in this policy and State law, the Superintendent or designee is authorized to establish and approve a program for granting credit for proficiency with the goal of allowing a student who would not benefit from a course because the student is proficient in the subject area to receive credit without having to take the course. A student who demonstrates competency under this program will receive course credit for the applicable course and be excused from any requirement to take the course as a graduation prerequisite. No letter grade will be given for purposes of the student's cumulative grade point average. The Superintendent or designee shall notify students of the availability of and requirements for receiving proficiency credit.

The program for granting credit for proficiency may allow, as the Superintendent deems appropriate, course credit to be awarded on the basis of a local examination to a student who has achieved the necessary proficiency through independent study or work taken in or through another institution. Proficiency testing may also be used to determine eligible credit for other subjects whenever students enter from non-graded schools, non-recognized or non-accredited schools, or were in a home-schooling program. All proficiency credit request must be administratively approved and must only be used in extreme circumstances where adequate transfer credit cannot be determined due to home-schooling or when the student's records from the prior school are unavailable for review.
